

## Sports Premium Impact Report 2022-23

Our vision for PE and school sport is to create a culture that encourages all children to be active and healthy. We aim to promote positive attitudes towards competition, physical activity and healthy lifestyles.

For the academic year 2022-23 Livingstone Primary School has received £17,660 to improve the quality of PE and sport.

This funding will help develop a programme to include:

- High quality PE lessons
- Extra-curricular sports clubs
- Greater outdoor provision for all children in the school
- Mental health support for all children as needed
- CPD opportunities for staff
- Top up swimming lessons for those that have not achieved the national curriculum expectations.

Expenditure Item	Description	Cost	Impact	Sustainability and Next Steps
Tameside Active Coach	Highly skilled coach to teach all classes in school across a day.	£6500	All children benefitted from high quality PE lessons which provides children with the skills to competently compete in local competitions. They demonstrated a greater awareness of sportsmanship and tactical awareness. Children gained a greater understanding of the benefits of keeping healthy. Children who were recognised as having a talent were given the opportunity to further their development through competition and other coaching opportunities. The coach guided and supported teachers in providing the 'next steps' in PE to develop our children's learning and support teacher's professional development. This coach continued to attend school through the lock down and continued to provide high quality PE sessions for the children of key workers and vulnerable children.	The sports coaches and teachers will provide children with knowledge and skills that can be transferred to a range of sports and activities that can be used throughout their lives.
After school sports club until 5pm	Sports club to run on weekly basis throughout the academic year. This was used to support provision in the after school club as due to enhanced cleaning we could not hold after school clubs		All children in the after school club were provided with additional sporting opportunities. More children were involved in physical activity for a longer time (until 5pm). Sporting ability of children improved as they practiced skills for longer.	After school clubs will enable more children to take part in competitive sport, giving them a greater understanding of teamwork, drive and belonging that they can apply to various aspects of their future lives.

	this year		The clubs are thoroughly enjoyed by the children and positive feedback is always given about the sessions and development of skills.	
Tameside Sports Partnership	Regular teacher meetings and networking for PE Coordinators. Monitoring support against School Games criteria and Ofsted criteria. A range of training opportunities for staff. Ofsted criteria training for PE Lead. Monitoring and School Games criteria and Ofsted criteria.	£750	A proportion of the £1500 for Tameside School Sports Partnership included professional development opportunities for teachers. This included Subject Leader PLT days to keep our school informed of and address current PE issues. The support will also include the subject leader and other teachers working alongside qualified sports coaches. Being a member of the Tameside Sports Partnership also gave children the opportunity to take part in competitive inter school sports. This gave the children experience of using the skills that they learn in PE lessons in a match situation and allow them to further develop their skills. It also provided them with the opportunity to challenge themselves, work as a team and represent the school at a local level.	Being a member of Tameside Sports Partnership will enable the PE lead to gain valuable knowledge and skills to move the subject forward and implement a strong PE culture for years to come.
Resources to enhance the provision of curriculum time PE lessons	Resources enable teachers to continue to deliver high quality PE lessons for all learners. Children are able to more quickly and confidently develop skills required to make improvements and progress.	£1700	Children have been able to spend a higher percentage of time working with sporting equipment and becoming more familiar and confident with them. Children are less frequently having to share equipment and more time is spent 'hands-on' with resources allowing children to make accelerated progress and develop skills at a faster rate.	Many of the resources will be able to be re-used again in the future. Certain items will need to be replenished next year to enable similar progress.
Visitors to introduce children to new activities and	Allowing children to see and experience sports and activities that they not have experienced before will have a positive impact on some of lifestyle choices that they make and allow them to see that being active has many positive effects.	£1200	Children in all year groups were made aware of and the visibility of the importance of being healthy and active was increased. Children had positive experiences of sport and recognised how there are a greater number of non-traditional sporting activities that can lead to improved fitness and healthier lifestyle.	Some children may be more inclined to want to take up different sports or forms of exercise in their free time. We will continue to invest in the coming years to give more children an increased number of opportunities to develop a more active lifestyle.
Equipment to enhance the provision of outdoor learning in EYFS	Resources will enable the staff in EYFS to help, encourage and enable the children to develop gross motor skills. The resources will allow teachers to engage the children and give them every opportunity to increase their rates of progress in this area.	£1400	EYFS children have been able to engage in a greater quality of activities in outdoor learning. There is a greater choice for children and a greater number of resources that allow them to develop gross motor skills. The increased amount of time spent in this kind of activity is allowing them the opportunity to make increased progress.	Many of the resources will be able to be re-used again in the future. A small number of items will need to be replenished next year to enable similar progress.
Resources that can be used to engage children at breaktime and lunchtime.	Resources will encourage a greater number of children to engage in more active activities at breaktime and lunchtime, leading to a greater number of children leading more active lifestyles.	£650	Children in all year groups have been given the opportunity to lead more active playtimes. They have more scope for purposeful play and associated benefits.	Due to the nature of the resources and the free nature of their use, many of these resources will need to be replaced next year.
Improved and robust	Storage to keep PE equipment	£650	Improved storage ensures that the equipment is well maintained	Resources will be in good condition for many

storage for PE equipment and resources	and resources safely locked away. Having a robust and hardwearing space for the storage of PE equipment will have the impact of improving the ease of use of equipment and result in higher quality lessons		and lasts for longer, with more children having access to high quality equipment for longer.	years to come.
Insurance	Insurance costs for teachers to transport pupils to competitions	£300	More teachers being insured to drive children to competitions means that an increased number of children can participate in competitive school sport.	All children who wish to take part in competitive school sport will be able to do so without transport being a barrier and will therefore be afforded the opportunity to live a healthier lifestyle.
Top-up swimming lessons (Spring term)	All the children in Y5 will receive an extra term of additional swimming lessons.	£1956	This allowed more children the opportunity to reach the required standard and increase children's confidence in the water. The children who still did not reach the standard benefitted enormously from the extra sessions and have a much better awareness of water safety.	Allowing children to have more time taking part in swimming lessons will enable them to increase their chances of reaching the standard and we will continue to invest Sports Premium in these extra lessons.
Improvements to forest school area, including purchasing additional and replacement resources	Maintaining and ensuring that the forest school site in a good condition and the resources that we have available enable the children to have active forest school sessions which allows children to gain the most from this resource.	£600	Forest school sessions are more productive and allow the children to gain the most from them. Team building, risk taking, gross and fine motor skills will all be developed from having a greater number of resources to allow for high quality sessions.	Many of the resources will be able to be re-used again in the future. A small number of items will need to be replenished next year to enable similar progress.
CPD for PE Co-ordinator	PE lead as access to and is given details of the latest developments in the teaching of PE and sport	£500	PE coordinator up to date with and has strategies for the development of PE allows the school to ensure it is delivering a high-quality PE curriculum and that the diet of PE that the children are exposed to from all school staff meets and exceeds the requirements.	PE and sport will continue to be well embedded in the culture of the school and the school will be well set to continue with this.
Planning and resources and the for the continued implementation of after school sports clubs	Resources purchased to ensure that equipment needed to run after school sports clubs is available.	£445	A number of different after school sports clubs are able to take place over the course of the year. The equipment allows the sports clubs to be of a high quality. This ensures that the children are receiving coaching that will improve skills as well as reinforce and encourage an active lifestyle.	The resources and plans will be able to be re-used and will ensure that the clubs can run similarly for a number of years to come.
Mossley Olympics medals and equipment	School contributed to the purchase of bronze, silver and gold medals as well as winners trophy for large inter-school sports and athletics competition. Equipment was also purchased to ensure that children had the necessary equipment to practise all events during curriculum PE lessons.	£500	Children participated in inter-school competition which included medal ceremony. Children had positive experience of sport which included both celebrating individual successes and working as part of a team.	Children will be inspired and encouraged to participate in competitive and non-competitive sport in the future.
5- a-day Fitness	Purchase of the school subscription for EYFS, KS1 and	£375	Children are able to be physically active at lots of different times of the day in order to boost activity levels.	Subscription to be renewed or alternative found to replace this next academic year.

	KS2 Children are given the opportunity to participate in some physical activity every school day. Children are encouraged to be physically active in school without relying on PE lessons.			
<b>Total Spend</b>		<b>17,526</b>		

We believe that the spending of our Sports Premium grant is sustainable because:

- The sports coach will provide children with the skills that can be transferred to a range of sports and activities that can be used throughout their lives.
- After school provision will enable more children to take in competitive sport, giving them a greater understanding of teamwork, drive and belonging that they can apply to various aspects of their future lives.
- Being a member of Tameside Sports Partnership will enable the PE lead to gain valuable knowledge and skills to move the subject forward and implement a strong PE culture for years to come.
- The 'top-up' swimming sessions will help to give the children the life-long skill of being a competent swimmer and being confident in the water. They will be more aware of water safety.
- Mental health support is able to be given early on to support children and families as and when they need it.
